ABOUT MYSELF

Product Owner specialized in the Automotive Software industry with an IT background and a healthy caffeine habit - vibe-coding the boring tasks away. Currently juggling a Master's degree in Cybersecurity and a Bachelor's degree in Management.

WORK EXPERIENCE

Continental - Romania, Sibiu

Software Product Owner Cybersecurity

[01/02/2024 - Current]

- Lead the development and implementation of cybersecurity solutions for automotive projects, ensuring compliance with industry standards and regulations, including ISO/SAE 21434.
- Collaborate with cross-functional teams to design and execute cybersecurity strategies for high-profile clients, including Daimler and BMW.
- Oversee the product lifecycle, from requirements gathering to deployment, ensuring the delivery of secure and robust systems.
- Manage stakeholder communication and ensure alignment with customer expectations and project goals

Continental - Romania, Sibiu

Build And Release Manager

[28/02/2023 - 31/12/2023]

- Serve as Build and Release Manager, ensuring timely and accurate releases according to project planning and coordination with cross-functional teams.
- Managed build, integration, and release processes in an Agile environment.
- Implemented and optimized CI/CD pipelines, ensuring smooth and automated deployments.
- Collaborated with cross-functional teams to plan, test, and deliver frequent, reliable software releases while maintaining version control and handling build failures.
- Led efforts to improve release efficiency and quality across development, staging, and production environments.

Continental - Romania, Sibiu

R&D SW Senior Engineer

[31/10/2021 - 31/01/2023]

- Provide pre-analysis and analysis of customer complaints to development teams, integrating feedback into continuous improvements.
- Combine analytical and design skills with software and hardware expertise to define, design, test, implement,

and modify systems.

CDW UK - United Kingdom, Rugby

Projects Lead and Automation

[01/2021 - 10/2021]

- Led digital display solutions projects for clients like McDonald's, Pizza Hut, and Starbucks in partnership with Linney, configuring IT infrastructure including Kiosks, Tills, monitors, computers, servers, and Meraki networking systems.
- Coordinated with senior technical teams to ensure best practices and project success.

CDW UK - United Kingdom, Rugby

Level 2 Configuration Engineer

[01/2020 - 12/2020]

- Installed and configured hardware and software for customers using scripted build documents.
- Managed server and networking configurations, including OS and virtualization.
- Configured datacenter equipment and imaging devices using MDT, WDS, SCCM.

Aston Martin Lagonda Ltd - United Kingdom, Gaydon

Manufacturing Operations Specialist

[30/09/2017 - 30/09/2019]

- Assembled components for Aston Martin models DB11, DBS, Vantage, Rapide, and Vanquish Zagato Shooting Brake.
- Determined vehicle specifications and assembled components accordingly.
- Supported quality, productivity, and process improvement initiatives.

Lear Corporation - United Kingdom, Coventry

Manufacturing Engineering Technician

[31/07/2016 - 31/08/2017]

- Assembled seats for Jaguar Land Rover models X760, X761, L494, and L560.
- Identified and reported product/process issues to supervisors.
- Followed company policies and contributed to continuous improvement.

Verida Credit IFN - Romania, Bucharest

System Administrator

[01/2015 - 07/2016]

- Installed and maintained IT equipment, including printers, laptops, and workstations.
- Managed and troubleshooted internal software systems.
- Collaborated with external suppliers to resolve operational issues.
- Configured and managed backup/restore procedures.
- Provided support for mobile devices and managed email systems using Microsoft Exchange Server.

Rezolv IT - Romania, Bucharest

IT Helpdesk Technician

[30/06/2013 - 30/11/2014]

- Provided first-level technical support to customers.
- Installed, configured, and troubleshooted computer hardware, software, and networks.
- Analyzed and resolved client issues via phone, email, or on-site.
- Managed incident tickets and maintained problem records.

EDUCATION & TRAINING

Bachelor's Degree in Automatics and Applied Informatics

Technical University of Civil Engineering of Bucharest [01/10/2009 - 01/10/2013]

City: Bucharest | Country: Romania

Level in EQF: 6

Studied a multidisciplinary curriculum combining computer science, control systems, and electronics. Gained hands-on experience in programming, embedded systems, industrial automation, and artificial intelligence, with a strong focus on problem-solving and applied engineering.

Student at Cybersecurity

ULBS Faculty of Sciences [01/10/2025 - Current]

City: Sibiu | Country: Romania

Level in EQF: 7

Currently pursuing a Master's degree in Cybersecurity, with a focus on information systems security, cloud security, cryptography, cyber risk management, IT audit, and secure application development.

Student at Management
